PREFACE

This report presents the biographical characteristics and achievements of the 1,469 new cadets who entered the Class of 1981. A separate report will compare selected characteristics of this class with previous classes. The admission scores listed in Table 1 are for the 1,102 cadets whose admission was based on the CEER, while Tables 2 and 3 are for the 367 cadets whose admission was based on American College Test scores. The following abbreviations, explanations and definitions of terms apply to this report.

CEER	A statistically derived weighted composite score of two College Entrance Examination Board tests (Scholastic Aptitude Test-Verbal, Scholastic Aptitude Test-Mathematics) and a standardized high school rank score.
High School Rank	This is a score derived by converting the actual high school rank to a standard score, using a formula developed by the Educational Testing Service.
Whole Candidate Score	This is a weighted composite score of the CEER or ACEER, the Physical Aptitude Examination score and the Leadership Potential Score.
Physical Aptitude Examination Score	This is a standardized score developed to measure physical capabilities.
Leadership Potential Score	This is a score derived from the ratings of the candidate by his/her secondary school teachers and evaluations by admissions officials of his/her type of participation in athletic and other school and community activities.
ACT	American College Testing Program.
ACEER	A statistically derived weighted composite score of ACT tests and High School Rank converted to the 200-800 range of the CEER.

CLASS CHARACTERISTICS INVENTORY
CLASS OF 1981

To the New Cadet:

This questionnaire is being administered under the authority of 10 USC 4334. The principle purpose is to collect administrative, demographic and attitudinal data relating to the entering Cadet Class of 1981. The routine uses to be made of the data are to analyze the characteristics of the class, develop trend data, analyze class attitudes pertinent to USMA programs and for course and services counseling and planning. The information obtained will be used only in statistical reports and will not become a part of your official record. Identifying information is requested to correlate with information that has been and will be collected at various times during your cadet careers. Your providing the information is voluntary. However, any nonresponse will result in incomplete data and may bias the results by preventing their complete interpretation.
